

# Happy Holidays

Dear Representative \_\_\_\_\_,

I'm writing today to thank you for co-sponsoring H.R. 2634, the House version of the Jubilee Act. This bill would expand eligibility for debt cancellation to 67 impoverished countries provided they use the money to address extreme poverty. Your support is invaluable to the more than 1 billion people who still languish in extreme poverty under the burden of massive debt. Without debt cancellation these 67 countries will not be able to meet the Millennium Development Goals (MDGs). Thank you for taking action on this important legislation. Next year, we hope debt relief can be a gift the citizens of these 67 countries can experience.

Sincerely,
