

February 10, 2010

Dear Member of Congress:

As organizations committed to ending global poverty, we write to urge you to co-sponsor the Jubilee Act for Responsible Lending and Expanded Debt Cancellation (H.R. 4405). The Jubilee Act safeguards the gains made by debt cancellation to date and expands eligibility for cancellation to countries that need it to meet the Millennium Development Goals (MDGs).

Debt cancellation is a proven way to reduce poverty. The debt cancellation supported by Congress in 1999 and 2005 has reached more than two dozen countries in Africa and Latin America. With the resources saved from debt relief, Tanzania increased its poverty reduction spending by 130% over the past six years. Uganda has used the \$57.9 million freed by debt cancellation to increase spending on primary education, malaria control, health care and infrastructure.

While we are only five years away from the 2015 deadline set to achieve the Millennium Development Goals (MDGs), the global financial crisis and other shocks have created major setbacks to achieving these vital poverty reduction goals, especially in Africa. Debt cancellation should be expanded to include countries that need it to meet the MDGs and to fight HIV/AIDS and other diseases. The Jubilee Act would make up to 22 additional low-income countries eligible for debt cancellation by the United States, the World Bank, and the International Monetary Fund provided that they demonstrate their ability to use the money to fight poverty and provide an annual report detailing the use of funds on poverty reduction.

In order to prevent a continual and wasteful debt/forgiveness cycle, it is essential to establish a framework for responsible and transparent lending in the future. The Jubilee Act calls for the United States to positively engage in international efforts to develop an international framework for responsible finance where creditors and aid/loan recipients alike adhere to standards to assure transparency and accountability to citizens, human rights, and the avoidance of odious debt.

In order to learn from past errors and ensure more responsible lending, we must address the problem of odious and unjust debts (debts accrued by undemocratic regimes or that did not benefit the population). The Jubilee Act does this by requiring the Comptroller General of the US to undertake audits of debt portfolios of previous regimes in countries such as the Democratic Republic of Congo and South Africa, where there is accepted evidence of odious loans.

The U.S. can lead the way to completing the good work already begun on debt cancellation. We urge you to cosponsor H.R. 4405, the Jubilee Act for Responsible Lending and Expanded Debt Cancellation.

Sincerely,
